

4+

DAUPHIN

Collaborative for Design. Creative in Solutions.

Creative people require creative solutions. This is a simple way of summing up the 4+ challenge. When four designers—Angelika Mosig, Andreas Notter, Jan Papenhagen and Wolfgang Ott—collaborated with design director Roland Zünd (hence 4+), they were looking to find common ground and develop a family of chairs that met the very highest expectations and speaks for itself, its creators and to design specifiers. Conference and lounge chairs require different pitches and seat heights, so were conceived together, while contrasting fabric options were deliberately developed to allow specifiers to customize their solution. And together is how 4+ designers produced 4+ seating.

DESIGN: Angelika Mosig, Andreas Notter, Jan Papenhagen and Wolfgang Ott, with Roland Zünd

Feel at Home. Work in Comfort.

To complement the award-winning 4+ lounge and conference collection named for the four Swiss architects who collaborated with design director Roland Zünd, created 4+ Relax. Sumptuous upholstery accentuates this chair's curvaceous form. A recline mechanism allows you to relax in comfort and lock the backrest in any position. Release the metal finger pull, and the backrest returns gently to its upright position.

DESIGN: Roland Zünd
