

## Sleek in Form. Meticulous in Design.

With its minimalist appearance, Signo reflects the craftsmanship and traditional upholstery detailing long associated with Dauphin. Signo's aesthetic signature element, characterized by a polished aluminum chassis which holds the upholstered seat, back and die cast polished arms together, underscores its European design roots and German engineering.

### Simple Comfort. Sophisticated Support.

Simple to operate, Signo can be upholstered in virtually any covering material. The seat uniquely supports the back, following the delicate curve of the spine. Arm pads can be upholstered in the same material as seat and back, or in a contrasting material to create a visually striking design.
